Keynote Speakers (in presentation order)

Dr. John Barta, University of Guelph
Topic: Goodiosis in an RWA environment

Dr. Lloyd Weber, Poultry Veterinaria, Guelph
Topic: Antibiotic Free Production: Lessons Learned

Dr. Steve Leeson, University of Guelph
Topic: Antibiotic-free potential nutrition support

Dr. David Trott, Wellenstein Feed & Supply Ltd.
Topic: Gut Health: A Commercial Poultry Nutrition Perspective

Jonathan Moffat, Department of Pathobiology
Topic: Extended-spectrum cephalosporin resistance in Escherichia coli from Canadian turkeys

Rachel Imai, Department of Pathobiology
Topic: Eimeria spp. in Canadian turkey flocks

Ryan Snyder, Department of Animal Biosciences
Topic: Reducing the level of resistance in Eimeria spp. isolates at a commercial broiler facility

Mohsen Mohammadrezaei, Department of Animal Biosciences
Topic: Identification and characterization of probiotic bacteria for enhancing gut health in poultry

Seyed Hossein Karimi, Department of Pathobiology
Topic: Encapsulation of cinnamaldehyde and oregano to enhance gut health and performance of broiler chickens received with or without a cooxidosis vaccine

Chongwu Yang, Agriculture Agri-Food Canada
Topic: The effect of alternative feeding strategies and non-daily feeding in feed-restricted broiler breeders on the GIT

Altair Arzola, Department of Animal Biosciences
Topic: The effect of alternative feeding strategies and non-daily feeding in feed-restricted broiler breeders on the GIT

Agenda

8:30-9:00 Registration and coffee
9:00 Welcome - Dr. Paul Kikanni
- Dr. Mark Kwon
- Dr. Eva Nagy
PHRN Update - Dr. Mark Kwon
OMAFR-OG Partnership - Dr. Paul Kikanni
Poultry Research - Dr. Eva Nagy
Keynote Presentations
9:15-11:00 Coffee Break
11:00-11:15 Panel Discussion
11:15-12:15 Lunch Break
12:15-1:30 Student/Post-Doc Presentations
1:30-2:30 Closing Remarks - Dr. Mark Kwon
2:30-3:00 Networking and coffee
3:00

Theme of the Day:
Cure, Health and alternatives to antibiotics: Challenges and possible solutions
